

# Control board COB1610

Electronic control board complete with multifunction and 20x4 LCD display. Dedicated to devices with many functions and with its 8 soft touch keys accompanied by green and red LEDs to signal status, it offers many possibilities of operation with the display in support as communication for each parameter/alarm or programming. Supplied with clock and battery to support time programming even when switched off. Upon request, it is equipped with a radio frequency module and can be customised to all power boards made in Cobofra.
