Control board DT2012

Electronic control board with soft touch technology complete with white and blue backlighting. Equipped with up to 6 keys, it can be combined with all functions for electronic equipment that do not require a display, by dedicating the operating FW and customising the pad-printed or screen-printed symbol on the keys. Supplied with box, buttons of different shapes, it can be backlit with white opal or painted keys and laser-printed symbols for backlighting of the function only.
