Electronic board COB2405

On-Off electronic board maximum 4kW for managing equipment with single-phase or three-phase 2-directions of travel motor with protection interlock. Through a setting it can change the single-phase 230VAC to three-phase 400VAC power supply. The board can be controlled by digital input, pushbuttons or electromechanical drives and has a 24VDC output to power a mains presence or operation light. It is equipped with micro switch and motor thermal consensus that can be excluded with a simple setting.

Board technology	Contactor 230/400V
Output 1	For single-phase 230VAC/three-phase 400VAC motor - max 4kW
Output 3	/
Micro contact 1	Yes
Thermal motor contact	Yes
Light signals	Yes
Serial 485	No
Remote control technology	No
Operating temperature	+0° +50°
Conformity	CE

Input voltage	Single-phase 230VAC/Three-phase 400VAC
Output 2	24VDC
Output 4	/
Micro contact 2	/
Electromechanical push-button controls	Yes
Sensors	Optional
Connecting electronic controls	No
BT/Wi-Fi Technology	No
Product size	166x78 mm

Field of application:

Kneaders | Meat grinder | Sheeters | Concrete mixers

Bone saw | Kneaders household
